MISSION

Infinity's mission is to provide our clients with financial solutions that are socially responsible, safe, easy to access, understand and manage in any place and time required, through decentralized vehicles in each of the markets where we operate; These solutions must also be profitable for our clients and for our companies, thereby generating value for our shareholders.

VISION

To become one of the main financial groups in Latin America, offering portfolios of financial products and services that allow our clients to manage all their finances with us in an integrated manner and at the same time maximize the value of their investment for our shareholders based on the trust in our strength and consistent profitability.
